

## Family dentistry plus specialists working for your every need...for a lifetime of coordinated care.

Discover HealthPark Dentistry - your **ONE** source for your family's complete dental care needs:

24 hour emergency care

All general dental services

On staff specialists

**Orthodontist** - Coordinates growth and development with our general and pediatric dentists...and amazes adults with ways to enhance their smiles too!

**Periodontist** - To help you keep your gums healthy and maintain your teeth for a lifetime!

**Implants/Cosmetics** - Our Prosthodontist has 3 extra years of training with implants to provide comfort and a natural tooth feel you never expected to be able to experience again.

### What does this mean for your family?

**Coordinated care.** As family members' dental care needs change, your HealthPark family dentists will work closely with our own on-staff specialists to ensure coordinated dental care that fits your long range goals and budget.

**Convenience.** No need to drive to one town for a pediatric dentist for your little ones...then to another town to an orthodontist for your teen's braces...then spend more time getting your teeth cleaned in yet another office. At HealthPark, you'll find all our specialists together - in one convenient location! That way, you can pile your family into the car and they can have all their dental care at one location.

**Caring** - Your children will have fun caring for their teeth in our "No decay club" based on recent breakthrough concepts that result in over 85% of our children decay free at their recall appointments (national average is 30%).

At HealthPark Dentistry, everything is designed exclusively for you.

A warm, friendly greeting the moment you walk in the door.

**Current communication technology**, including email, online and text messaging appointment requests and confirmations so you can fit your dental visit scheduling into your busy calendar.

A **"first, let's-talk-it-over"** approach before any procedure. You'll meet with our professionals to discuss exactly what you want. You gain a better understanding of what to expect from the procedure...other options which may be available to you...and their costs. This upfront, consultative approach eliminates any unwelcome surprises for you!

**Phone calls** after extensive dental work to make sure you're feeling ok.

**A three-year limited warranty** on our procedures lets you know we stand behind our treatments!

For all these reasons, no wonder over 530 patients have been with us over 20 years...and that's why we are the largest dental practice on the north side of Dayton.

## At HealthPark, expect 21st century dental care.

Using advanced training and technology for your comfort and safety.

**State-of-the-art equipment.** In addition to the most modern dental equipment to care for your teeth, we use some surprising technology: air abrasion, computer controlled anesthetic syringes, laser diagnosis, digital x-rays to minimize radiation, even intra oral cameras-to really help you understand what's going on!

**Making treatments as pleasant as possible** by using nitrous oxide, oral sedatives, IV anesthesia, stereo headphones...even TV's with movies in every patient care room.

**Decay controlled, teeth for a lifetime.** Based on new information in the 21st century, you can stop decay - and even heal small areas of decay! This means:

**Less drilling**

**Less cost**

**Less discomfort**

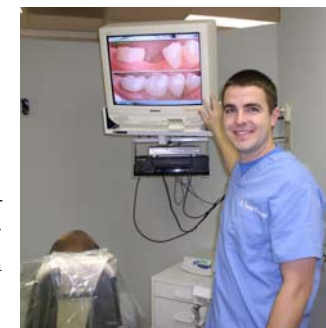

**Concern for your safety.** Using the most advanced cleaning and sterilization techniques, and meeting or exceeding all federal and state government guidelines for safety and cleanliness. We are both OSHA approved and one of only 19 dentist offices nationally to be accredited by the AAAHC.

### Planning to keep dental care affordable

We'll work with you to develop a plan to help you stay healthy so you can avoid costly procedures...and lower your dental bills!

Your plan will be tailored to your budget. We offer a 6 months special financing plan plus up to 5 years extended financing available and accept all major credit cards.
